

LENO MUTUAL FUNDS

The Leno Mutual Funds are the most user-friendly and financially sound investment vehicles for individuals or institutions to build wealth with.

Our mutual funds allow investors to invest in a structured preconstructed portfolio where clients benefit from the returns generated from the fund's investment performance without the burden or responsibility of managing their own portfolio.

With monthly subscriptions (deposits) and redemptions (withdrawals), clients will always have access to their money and control of their investment.

Invest in the fund that best matches your investment goal with your risk profile.
